Industry	Information Technology
Employment Type	This is a full-time on-site contractual role, 5 days a week
Job Level	This is a Mid-Level Role with 02 to 03 years of experience
Education	BS in Software Engineering/Computer Science or other equivalent degree.
Location	G-8, Islamabad

About Your Role:

We are looking for a skilled Adobe Commerce Developer to join our development team. The role involves developing, customizing, integrating, and maintaining Adobe Commerce/Magento 2 applications and supporting the delivery of scalable and reliable e-commerce solutions. The ideal candidate should have strong hands-on experience with Adobe Commerce/Magento 2 and a solid understanding of application development, integrations, performance optimization, and software engineering best practices.

Your Impactful Goals Will Include:

- Develop, customize, and maintain Adobe Commerce/Magento 2 applications.
- Develop and customize modules, plugins, observers, and scheduled jobs.
- Customize storefront, checkout, catalog, pricing, promotions, and order workflows.
- Develop and integrate REST, GraphQL, and third-party APIs.
- Integrate Adobe Commerce with ERP, payment, shipping, and other enterprise systems.
- Troubleshoot defects and resolve application issues efficiently.
- Optimize application, database, and cache performance.
- Apply Adobe Commerce coding standards and security best practices.
- Perform unit testing and participate in code reviews.

- Prepare and maintain technical documentation as required.
- Support deployments, releases, and production issue resolution.
- Collaborate with team members and stakeholders to understand requirements and deliver effective technical solutions.
- Ensure timely delivery of assigned development tasks and project milestones.
- Stay updated with Adobe Commerce development practices and apply relevant improvements to development work.
- Stay updated with Flutter and mobile development best practices and apply them to development work

Functional Skills Requirement:

- 2–3 years of relevant development experience.
- Strong proficiency in Adobe Commerce/Magento 2 development.
- Hands-on experience developing and customizing modules, plugins, observers, and scheduled jobs.
- Experience customizing storefront, checkout, catalog, pricing, promotions, and order workflows.
- Experience developing and integrating REST, GraphQL, and third-party APIs.
- Strong knowledge of PHP, MySQL, Composer, JavaScript, HTML, and CSS.
- Experience integrating Adobe Commerce with ERP, payment, shipping, and other enterprise systems.
- Strong troubleshooting and application performance optimization skills.
- Understanding of Adobe Commerce coding standards and security best practices.
- Experience with unit testing, code reviews, and technical documentation.
- Experience supporting deployments, releases, and production issue resolution.
- Experience with Git, CI/CD, Docker, and cloud-based environments.
- Knowledge of Adobe Commerce Cloud is preferred.
- Experience with AEM–Adobe Commerce integration using CIF is a plus.
- Adobe Commerce certification is a plus.
- Excellent analytical and problem-solving skills.
- Strong written and spoken English communication skills.
