Job Level	This is a Mid-Senior Level Role with 02 - 04 years of experience
Education	BS(CS) / BS (SE)
Location	G-8, Islamabad

About Your Role:

We are seeking a highly skilled and experienced individual to join our team as a Full Stack Developer. He/she will be responsible for helping the team design, code, and debug applications using their skills in .NET Core, React, SQL, Azure services, and Azure DevOps.

Your Impactful Goals Will Include:

- Designing, coding, and debugging applications in various software programming languages having special skills & expertise in .NET Core, React, SQL, Azure App Services, Azure Functions, Azure Storage, Azure Key Vault, Azure Application Insights, and Azure DevOps.
- Understand business logic involved in the system and deliver as per client's requirement.
- Create process flows and code accordingly for enhancements and changes.
- Perform Unit and Integration Testing.
- Work with the Team Lead during System Integration Testing.
- Be able to solve problems quickly and completely.
- Provide support on LIVE projects and work efficiently to design, develop, test, and deliver project modules within assigned deadlines.
- Strong user interface designing skills and ability to follow quality coding practices with clear and well-documented code.

Functional Skills Requirement:

- Must have 02 to 04 years of experience in full stack application development.
- Must have ability to work with SQL Server and create stored procedures and complex queries.
- Must be able to work with .NET Core and create REST APIs.
- Hands-on experience with React for front-end application development.
- Hands-on experience with Azure DevOps for source control and deployment.
- Hands-on experience with Azure App Service, Azure Storage, Azure Functions, Azure Key Vault, and Azure Application Insights.
- Ability to solve problems quickly and completely with proactive involvement.
- Team player with good communication skills and positive attitude towards work.
- Perform Unit and Integration Testing with the Team Lead during System Integration Testing.
