About Your Role:

We are looking for a motivated .NET Apprentice eager to kick start their career in software development. This role offers hands-on experience in C#, .NET Framework, and ASP.NET MVC, along with exposure to SQL Server, front-end technologies, and cloud platforms. You will work closely with experienced developers, enhance your problem-solving skills, and contribute to real-world projects in a collaborative environment.

Your Impactful Goals Will Include:

- Gain hands-on experience in C#, .NET Framework, and ASP.NET MVC5 by actively contributing to development tasks.
- Understand OOP principles and apply them effectively in real-world coding scenarios.
- Learn to write optimized SQL queries, joins, and stored procedures using SQL Server.
- Understand database indexing and its impact on performance.

- Gain practical knowledge of HTML, CSS, JavaScript, and jQuery to enhance front-end functionality.
- Understand how RESTful APIs and web services interact with .NET applications.
- Identify and troubleshoot common coding errors effectively.
- Learn best practices for debugging and optimizing code to improve performance.
- Work within a team-oriented environment, receiving and implementing constructive feedback.
- Understand and contribute to the Agile/Scrum development process.
- Develop a basic understanding of Microsoft Azure and cloud-based deployment.
- Learn and use Git or TFS for version control and collaboration.
- Stay updated with emerging .NET technologies and industry best practices.
- Actively participate in code reviews, training sessions, and mentorship opportunities.

Functional Skills Requirement:

- Good concepts of OOPS with C# as primary language.
- Basic understanding of C#, .NET Framework, and ASP.NET MVC5.
- Familiarity with SQL Server (queries, joins, stored procedures, indexing, etc.).
- Knowledge of HTML, CSS, JavaScript, and jQuery is a plus.
- Strong problem-solving skills and willingness to learn new technologies.
- Ability to work in a team and take feedback constructively.
- Good communication and analytical skills.

Nice to have:

- Know-how or real experience with Microsoft Azure.
- Understanding of RESTful APIs and Web Services.
- Experience with version control systems (Git, TFS, etc.).
